

Austrian avant-garde metal psychos KOROVAKILL transform into CHRYST. The following mysterious message comes from their headquarter:

*“Chryst is a deconstruction of the occident. He’s the birth of a new world, an inverse universe, created to change your world forever. The revelation is near. Chryst will open the doors of your perception and unearth the hidden treasures of your imagination. The transformation of KorovaKill into Chryst is not just a change of name. It’s a completely new era of musical revolution!”*

The long-awaited, forthcoming CHRYST album “PhantasmaChronica” will be released in September 2011. First impressions of the artwork are already available. First audio excerpts will be released soon.
